O God, you alone are the creator and sustainer of life. You have given us the gift of life, and have called us to responsibility in extending and preserving life. You want life to be free, rich and growing. Help us in our relationships with one another to respect and to help one another to grow.

We thank you for specific tasks that you give to us. We thank you for persons who have accepted significant responsibilities for the leadership of our city and community life. May there always be the desire to look beyond personal and political interests, to the seeking of the good for the larger community. Give the members of this city council, and their administrators the dedication and vision to be effective in their community service and responsibility. When there are differences, give the freedom to open debate and understanding. When there are difficult decisions to be made, give them direction. When there are mistakes, give them the willingness to forgive and be forgiven.

Grant them, O God, joy and satisfaction in their service. And may our community and city be a better place to live, work, and grow because of our common search for life as you created it to be. Bless now this meeting together this night. In Jesus' name. Amen.

Re: Proposed Creation of Fort Wayne Bypass

Dear Mr. Westerman:

Copies of your recent letter to Governor Bowen and his response to you concerning the resolution (14-78) passed by the Common Council have been forwarded to the State Highway Commission.

It is our earnest desire and intent to keep the citizens and local officials of the Greater Fort Wayne area fully informed about the proposed creation of the bypass.

Public meetings, public hearings, and meetings with governmental agencies and with other interested groups will take place on a continuing basis. Our recent public hearing for the northeast segment of the route is an example of those efforts to keep everyone interested as fully informed as possible. News releases, legal notices, public displays, and an informal discussion period as well as the formal hearing were used to alert the officials and citizens of the area of our current status on that portion of the route.

We will now proceed to review the comments and information received prior to, during, and subsequent to the formal hearing and then complete the advance studies—location and environmental—for submission to the Federal Highway Administration. The same efforts, to complete the advance studies, are underway on the south-southeast segments of the route.

While we will continue through the same efforts used on all of our major projects to make every effort to provide the continually developing information to interested persons and groups, it is not practical on a formal quarterly basis to prepare reports on the then current status of our projects for submittal to agencies such as the Common Council.

Again, we want to emphasize our intent to keep the Council and all other interested parties informed on our proposed bypass projects; but to do this when information available warrants, not on a structured filing of reports basis.

Yours truly,

Roger F. Marsh
